

## DC-090 DC Jack Panel To PCB

DC Jack power connectors are an essential component of modern electronic devices that rely on a direct current (DC) power supply.

### Specifications:

1. Voltage – Rated 24VDC
2. Pin diameter: Ø2.0 mm according to table attached
3. Current Rating: 5A.
4. Temperature: -40°C ~ +85°C.

### Materials:

1. Contact Material: Copper Alloy.
  2. Contact Plating: Silver Plating Over Nickel.
- Insulator Material: Plastic, Black.
