BS-2 Coin Cell Battery Holder

2032 Lithium Coin Cell Battery Holder – Horizontal Insert Type

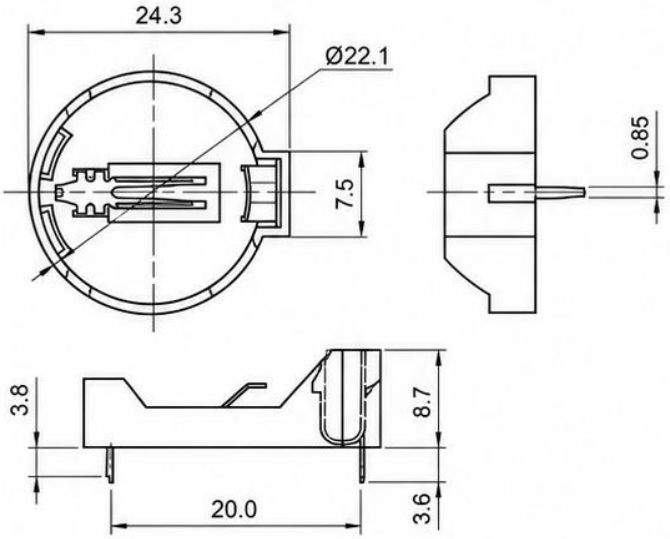

Product Summary

Part Number	**BS-2**
Product Type	Coin Cell Battery Holder
Battery Type	2032 Lithium Coin Cell
Mounting Style	Horizontal Insert Type
Color	Black

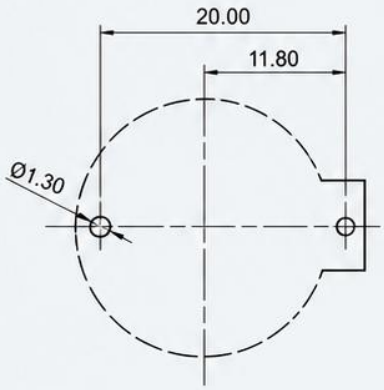

The BS-2 is a low-profile, horizontal insert coin cell battery holder designed for 2032 lithium coin cells. It features a durable thermoplastic housing and reliable metal contacts, ideal for a wide range of electronic applications.

Dimensions (Unit: mm)

Recommended PCB Layout

Tolerance ±0.05

Materials

Base Material	Thermoplastic, UL94 V-0
Housing Material	PA66
Contact Material	Copper Alloy
Contact Plating	Tin
Operating Temperature Range	-25°C to +85°C

Electrical Characteristics

Dielectric Withstanding Voltage	AC 500V
Insulation Resistance	1000MΩ Min.
Contact Resistance	100mΩ Max.

Ordering Information

SCR Part Number	BS-2
Housing Color	Black
Contact Plating	Tin
Housing Material	PA66
